Re: Public Comment on Dejoy's 10-year plan

I request that Dejoy's plan not be approved. There is nothing in this plan that will enhance the service or status of the United States Postal Service. We have already seen his tactics during the campaign where he removed 711 sorting machines, delayed the mail for seniors with monthly checks and prescription service, slowed down the mail-in ballots, a steadfast facet of our Democracy, removed mail boxes, and made life miserable for the millions of us who depend on an efficient and viable postal service.

Dejoy plans to do even more to disable or discredit our postal service with his so-called ten year plan, which does nothing to enhance our service. In fact, his plan calls for more even insidious cuts and drawbacks. He wants to reduce hours, close down post offices, offload mail to private companies, cease using planes for quick delivery of first class mail, increase prices, and other detrimental actions. He does not have a clue how to provide quick and efficient service to all Americans through our Postal Service, instead, he seeks to delay and destroy a service that we have been so proud of and depended on for all of our lives. This has to stop.

Please do not approve of Dejoy's ten year plan of detrimental actions.

Sincerely,

Lois Elber,
